

UPDATE FROM VENTA CARE CENTRE

Saturday November 21, 2020

To our Residents and Family Members

Venta Care Centre's laboratory results are coming in. We can share at this time we have two positive staff members and 6 residents that are asymptomatic but positive. You will NOT receive a call from us if your loved one is negative. Anyone who has residents on the affected unit will be contacted by phone. The residents and staff that are affected are on one unit and all our protocols are in place. We are fully staffed.

We are now considered to be in "OUTBREAK". Please refrain from calling the nursing units as our team is continuing to provide quality care to all our residents. You will be receiving a daily recorded briefing and we are going to be holding a town hall via Zoom. You will be sent and invite to attend early next week.

We have been in contact with Alberta Health Services and our Medical Director Dr. Gardham and they are actively involved and are provided clinical guidance.

As you are all aware the cases of COVID-19 in the Edmonton Zone high. Although this news is not what any of us wanted, we feel that Venta Care Centre has been prepared and will handle this with great professionalism.

We are committed to full transparency in keeping you informed.

If you have any questions, please do not hesitate to call. Kimberley Becker at 780 952 9596

Respectfully
Dr. Peter Birzgalis
CEO Venta Care Centre
